equipped with the most modern production machinery, both domestic and foreign.

25X1

## Production Plan

- machine guns of light and heavy caliber Model 26 and 37 and replacement parts;
- antitank guns, caliber 57 millimeters; assembly production has been initiated;
- Model S-39 antitank guns of 37 millimeters and replacement parts;
- assembly-balt production of automatic pistols of 7.62 millimeters, Model CZ-51, Type 003;
- aircraft machine guns of 12.7 millimeters and replacement parts;
- ammunition for light and heavy machine guns, automatic pistols, antitank guns, and antiaircraft guns;
- rockets which are launched electrically from aircraft and are used antitank weapons.

## Production Capacity

After two months of observations, it was possible to ascertain the following approximate monthly production capacities:

- 1) Ammunition for machine guns and automatic pistols: 62-65 carloads;
- 2) Machine guns of light and heavy caliber: 220;
- 57-millimeter antitank guns: [sic; see above; under "Production Plan"]
  37-millimeter antiaircraftyguns: 14-16;
- 5) Type 003 automatic pistols of 7.62 millimeters: 6,200;

25X1

SECRET

25X1

- 6) 12.7-millimeter aircraft machine guns: 36-38;
- 7) Aircraft and antitank rockets: production cannot be determined because it is carried out irregularly order of the Ministry of Defense.

At the present time, 15,000 persons are working at the ZPS-JESENICE factories; 35 percent of the workers are women. The work is done in three shifts.
